NETAPP AFF A-SERIES

Powerful. Intelligent. Secure.

Unified data storage built for the AI era

Welcome to the future of intelligent data infrastructure.

NetApp® AFF A-Series systems easily power your most demanding workloads—from the mission-critical apps that run your business today to the AI and GenAI workloads that will unlock innovation and productivity in the future. With the advanced data management, industry-leading ransomware protection, and cloud integration that GenAI and other modern workloads demand, only NetApp delivers true unified storage architected for the next generation.

The AFF A-Series storage family, powered by NetApp ONTAP® data management software, delivers the same NetApp simplicity and reliability that tens of thousands of organizations of every size, in every industry, around the globe, have trusted for years. It's the same technology the top three public clouds rely on to drive all your apps.
