NETAPP ASA

Simple, powerful, affordable block-optimized storage

The challenge

Organizations have long had to choose between operational simplicity and high-end capabilities like scale-out and advanced data management in block storage. IT decision makers have been forced to compromise, and that has impeded infrastructure modernization efforts.

The solution

With the block-optimized NetApp® ASA systems, NetApp eliminates that trade-off — via simple, powerful, scale-out all-flash storage with advanced data management and protection features at an extremely affordable price. NetApp ASA enables storage modernization for every organization.

The ASA systems deliver a simplified and consistent experience for VMware apps, mission-critical databases, and other SAN workloads. Built on a scale-out, end-to-end NVMe architecture, NetApp ASA systems offer industry-leading availability and performance, along with simple data management across your hybrid cloud.
